EDUCATION

Bhagwan Parshuram Institute of Technology

B.Tech – Computer Science & Engineering

CGPA: 9.07 / 10

New Delhi, India

2023 – 2027

PSM PUBLIC School

CBSE Class XII (Science)

Percentage: 93.8%

New Delhi, India

2021 – 2022

SUMMARY

Computer Science Engineering student with strong academic foundation in Data Structures & Algorithms, Object-Oriented Programming, Database Management Systems, Operating Systems, and Computer Networks. Experienced in building full-stack web applications, designing RESTful APIs, and integrating databases. Possesses working knowledge of Machine Learning and NLP concepts and is focused on developing scalable, efficient, and maintainable software solutions.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, JavaScript

Frontend Technologies: HTML, CSS, React.js, Tailwind CSS

Backend Technologies: Node.js, Express.js

Databases: MongoDB, SQL

Core CS Concepts: DSA, OOPs, DBMS, OS, CN

PROJECTS

Resume Analyzer

Python, Machine Learning, NLP, Flask

- Developed an ML-based resume analysis system using NLP for skill extraction and ATS-style keyword matching.
- Implemented text preprocessing pipelines including tokenization, stopword removal, and vectorization for improved relevance scoring.
- Designed Flask-based APIs to handle resume uploads, analysis workflows, and relevance score generation.

CoffeeStack — Full-Stack Coffee Ordering Application

React.js, Node.js, Express.js, MongoDB

- Built a scalable full-stack application with product listing, cart management, order placement, and billing features.
- Designed and implemented RESTful backend services using Express.js for order and user management.
- Developed a responsive React-based frontend with efficient state management and API integration.

TRAINING & CERTIFICATIONS

Summer Training – Artificial Intelligence & Machine Learning — WinnoVation

- Completed hands-on training covering ML algorithms, data preprocessing, model evaluation, and real-world applications.

Tata – GenAI Powered Data Analytics Job Simulation — Forage

- Gained experience in Generative AI-driven data analytics, including data interpretation and business insight generation.
